

5 Reasons to be Worried About the Special Election this November

The Governor's propositions:

- **Cut Funding for Schools:** Gov. Schwarzenegger's props slash education funding and health services and put his special interests before the needs of Californians.
- **Upset Checks & Balances:** His ballot measures upset California's constitutional system of checks and balances and eliminate budget protections for education and other services that Californians depend on.
- **Attack Teachers:** The Governor is pushing an initiative that allows teachers to be fired for no reason and attacks other contract rights, discouraging new teachers from working in the state.
- **Silence Workers Voices:** Corporations, which already outspend workers 15-to-1 in elections, are backing an initiative that would allow them to spend money freely on candidates while choking the voice of workers and unions with red tape.
- **Are Funded by Corporate Donors:** Corporate special interests that support privatizing our retirement plans and oppose needed health care reform have raised more money for Gov. Schwarzenegger than any other governor in California history.

The Governor's ballot initiatives will take California in the wrong direction.
They are the wrong ideas for *all* our communities.

Vote NO on Propositions 74, 75, 76 and 77
