

# Stand Up For a Better California.

# Say NO to 75 & 76

## Prop 76 Gives Total Control to the Governor

- **Prop 76 gives the Governor unprecedented power** over the state budget. The governor has the power to make cuts "at his discretion" with ***no legislative oversight***.
- The *Orange County Register* calls the initiative's spending limitations "**phony**."
- The real agenda of the Governor and his corporate allies is to **cut schools, health care, public safety, retirement security, and more**.
- **Prop. 76 would slash \$4 billion from our schools, \$25,000 from every classroom.**

## Prop 75 Silences His Opposition

- **Prop. 75 silences working people on issues that matter to all of us:** pensions, wages, schools, prescription drug costs, health care, home care, and basic job security.
- **Prop. 75 is deceptive.** It isn't about protecting workers; its proponents have supported cutting schools, social security, public safety programs, even MediCare. The author recently called firefighters, police officers, nurses, and teachers "greedy" and "arrogant" for fighting the Governor's attacks on education, nursing ratios, and public safety.
- **Prop. 75 only restricts public employees.** It does *not* restrict corporations—even though corporations spend shareholders' money on politics. Corporations already outspend unions in politics nationally by 24 to 1. Prop. 75 is designed to rig the system.

## A Hidden Agenda. Bad For Our Kids... Bad For California.
